1 Ben, 14

Living with my sister is so difficult! She's very messy. She's six, so her only chores are putting her toys away and feeding our cat, Mr Paws. Her toys are always on the floor and Mr Paws' bowl is usually empty! I'm tidy and organised, so I often do her chores in the end. I love her, but I think I'm too patient with her!

2 Lizzie, 13

I'm the only girl in the family. My brothers say I'm too loud and the neighbours can hear me when I talk, but that's not true. We sometimes argue about what to watch on TV. All brothers and sisters argue sometimes! My brothers usually win and I watch the things they like, even the football. But I'm easy-going and I don't get upset easily.

3 Robbie, 12

I'm very quiet and I like spending time on my own. I like reading or playing video games in my room. My brother is very different from me. He can't spend one minute on his own! He is also very bossy. He always tells me what to do! Sometimes I think my best friend, Chris, is lucky – he is an only child!

Unusual places to live

Izzie's most unusual places

Hi, I'm Izzie and this is my blog about the most unusual places in the world. Today I'm writing about Australia!

Australia is a continent and it's also an English-speaking country. Its capital is Canberra and three of its largest cities are Sydney, Melbourne and Brisbane. Australia is the sixth largest country in the world, but only about twenty-five million people live there. Desert covers most of the land, so about eighty percent of the people live on the coast. The climate is better there. But some people live in unusual places. One of them is a small town called Coober Pedy.

Coober Pedy is in the South Australian desert. On summer days, it can be as hot as 47°C! For this reason, more than half the people live under the ground. The temperature is always comfortable there. Underground homes have kitchens, bathrooms, bedrooms and living rooms. Everyday life in Coober Pedy is not very different from any other town. People go to work or school, do their household chores, watch TV and spend time with friends and family.

Coober Pedy has lots of visitors every year. People come to stay in the underground hotels. There are also underground shops, cafés and museums. On summer nights, when it isn't too hot, people can go above the ground and play golf in the world's only golf course without grass. It's not easy to lose golf balls because they are glow-in-the-dark!

Welcome to Paws Cat Café!

Do you know what a cat café is?

No, it isn't a café for cats. It's a café with cats, where you can have a drink and a snack while you watch them play. You can play with them too!

Here, you can enjoy a cup of *cat-puccino*, tea or a glass of juice while you hang out with our friendly cats. We also **serve** delicious *cat-cakes*!

Our **opening hours** are 2 p.m. to 8 p.m. from Tuesday to Friday and 10 a.m. to 8 p.m. on Saturday and Sunday.

Because we don't have many seats, please **book** before you visit. Saturdays and Sundays are our busiest days, so make sure you book early. Tickets **cost** £6 per person and you get a **free** drink with them.

What you need to know before you visit:

- Our visitors must be twelve years old or older.
- You can touch and hold the cats, but please do not carry them around – cats aren't toys.
- When the cats are sleeping, please be patient. Cats are happier and more playful after their sleep.
- Take as many photos as you like, but no flash photos, please.
- Our **staff** are happy to help you. Just ask!

You want to know about a good portable charger. The Power Booster isn't too bad, but I don't think it's the best choice. It's only got one port and it's too big and heavy. You can't carry it in your pocket. In my opinion, the Max Power is better. First of all, it's got two ports. What's more, it's smaller than the Power Booster. Finally, it's lighter.

It's more expensive than the Power Booster, but I don't mind.

Cheers, Mac

by Shirley Burns

A

My family and I don't like going to the beach. We get bored there, so last summer we went to Alaska for our holidays. Alaska is the biggest state of the USA and one of the last wild places on Earth. It has volcanoes and mountains, rivers, thousands of islands and more than three million lakes! It's never very hot there, but the days are long in July and it gets dark late.

B

We went to Juneau, the capital of Alaska, by plane. There, we joined a group of three other families and two guides. We travelled around the country in caravans, and we camped in a different place every night. The caravans had beds and bathrooms and were very comfortable! At night it got cold, so we sat around the camp fire and ate our food.

C

We had a fantastic time. We went kayaking, fishing and hiking in the mountains. We always had a guide with us, so we didn't get lost. The forests were full of wild animals and we saw a wolf and grizzly bears. We got tired because there were so many activities, but we loved it. The last day of our holiday was the best! We went on a boat trip and saw humpback whales!

The phone call that changed our world forever!

3rd April, 1973 was a cool spring day in New York City. People were walking in the street when they saw a man with a large object in his hands. He was holding it next to his ear and he was talking. But there was no one with him! Who was the man and who was he talking to?

The man was Martin Cooper and he worked for Motorola. He was talking to Joel S. Engel, who worked for a rival company. Engel was sitting at his desk when his phone rang. 'Joel, this is Marty,' said Martin. 'I'm calling you from a cell phone, a real hand-held portable cell phone*.' This was the first ever public mobile phone call.

The mobile phone Martin Cooper used was very different from smartphones today: It weighed 1.1 kg and it was 23 cm long. It only made phone calls. The battery lasted only twenty minutes.

Today, most smartphones weigh 100–200 grams. They have a touch screen, they can connect to Wi-Fi, you can talk for hours and charge them with a portable charger. There are apps for everything you want to do. You can even choose a different ringtone for each of your friends and family!

A weekend to remember

Two weeks ago, Helen went on an activity weekend with her class and two teachers, Mr Jones and Mrs Brown. They stayed in a small hostel called 'Mountainside Hostel'. It was near a big, beautiful mountain.

On Saturday, they wanted to explore the area, so Mr Jones said, 'Let's go hiking!' They had a great time and took a lot of photos. They walked a long way, so they got tired.

In the evening, they were very hungry. There wasn't a restaurant at the hostel, so the students cooked their dinner in the kitchen. It was nice and modern. There was a microwave oven, a blender and there were three toasters. At nine o'clock, Mrs Brown shouted, 'Bed time! There's a cycling trip tomorrow, so we must get up early.'

In the morning, it was very cold. Helen and her friends were getting ready when they heard shouting and laughing outside. 'What's happening?' Helen said to Jenny. They looked out of their bedroom window. Everything was white. It was snowy! Mr Jones was standing in the garden. Do you want to feel better? Exercise!

Exercise is good for you, but what exactly does it do to your body? Let's find out!

The heart does more work than any other muscle in your body. It beats about 100,000 times a day! When you exercise, it beats faster because it has to send more blood to your muscles. This makes your heart stronger and you get fitter – you don't get tired quickly and you have energy. Your muscles get bigger and stronger. You can move, run and carry heavy things more easily.

What about the rest of your body?

When you exercise, your heart sends more blood to your brain too. You learn more quickly, you feel more relaxed and happier, and you sleep better.

Exercise is also important for your bones. Young people have strong bones, but when you get older, your bones become weaker. There are 206 bones in your body (52 are in your feet and 54 in your hands), and you have to exercise to keep them strong.

REMEMBER: People who exercise don't get ill as often as people who don't exercise. And you don't have to go to a gym to exercise. Just stay active!

Here's what you should do:

- Do a sport – it's fun!
- Dance – with your friends or on your own!
- Ride your bike or walk – sometimes it's faster than the car or the bus!

1 Work in pairs. Why do people exercise?

Sir David Attenborough

If you watch TV, you probably know Sir David Attenborough's work. After all, he is the 'godfather' of wildlife documentaries and one of the most loved and respected people in Britain.

His love of nature started when he was just a boy. He was interested in fossils and he had a big collection of them. It was no surprise that he decided to study Natural Sciences at Cambridge University.

When he began his career at the BBC, in 1952, there weren't many programmes about nature. Sir David changed that with a series of documentaries called *Zoo Quest*. For the first time, film crews travelled all over the world and brought back black and white films showing animals in their natural environment. Sir David produced a lot more wildlife documentaries after that. They were all very popular. *Life on Earth* had millions of viewers worldwide.

His work still inspires viewers of all ages, all over the world. The films are now in full colour, HD and even 3D. With the help of technology, we can see the world through the eyes of a bird flying high in the sky, a fish swimming deep in the ocean or a very small insect on a tree.

A number of plants, insects and birds have Sir David's name. That's a great way to say a big 'thank you' to the man who spends so much of his time caring for nature and protecting it.

WOULD YOU LIKE KETCHUP WITH YOUR ICE CREAM?

charcoal

- d** Ice cream is nothing new. The Chinese ate ice cream two thousand years ago. They mixed milk and rice and froze it in snow. The ancient Romans loved eating snow with honey and fruit. For many years, ice cream was only for rich people. The ingredients were expensive and it cost a lot to keep it cold. Today ice cream is for everyone!
- c** Have you ever tried to make ice cream? It's simple. All you need is milk or cream and sugar. Some recipes use eggs too. Then you can add vanilla (the most popular flavour), chocolate, strawberries or other ingredients. If you only have fruit and sugar, you can make a delicious sorbet. A sweet and sour lemon sorbet is great in the summer.
- b** If you are not afraid to try, there are some unusual ice cream flavours too. Have you ever eaten spicy ice cream with chocolate and chilli? You can also make ice cream with salty biscuits in it. What about these flavours? There's sausage ice cream and cheese ice cream. There's even black ice cream with charcoal in it. Check

What can you do to make your neighbourhood a better place?

LET'S FIND OUT!

1 Is your neighbourhood clean?

Everyone loves a clean neighbourhood, so please don't drop litter in the street. Don't expect someone else to pick it up for you. Look for a bin and put it in there. You can also take it with you and put it in the bin at home. Are you taking your dog for his usual walk this afternoon? You mustn't leave the house without a little bag. Clean up after your dog and be a good example for your neighbours.

2 Is your neighbourhood green?

Flowers and trees make your neighbourhood pretty and a healthy place to live. Do you have a garden? Why don't you plant flowers in front of your house? No garden? No problem! You can easily plant flowers in flower pots on your balcony. You mustn't forget to water them, though!

3 Is your neighbourhood friendly to wildlife?

When we wake up and hear birds singing, we feel happy and relaxed. They are also useful because they eat insects. So how can you make your neighbourhood friendly to birds? A good start is to leave some food for them, especially in winter, and put clean water in a bird bath every day. They need it for drinking and washing.

Food to try in the UK

Very British food

1

It's a type of sweet. It is made with sugar, it comes in many flavours and colours and it usually has words written inside it. It is very popular in seaside holiday places, like Brighton. Look carefully at the photo – can you read the words inside the stick?

2

People first made it in Scotland, about 900 years ago! The recipe we use now is very simple: all you need is flour, butter and sugar. In the old times, shortbread was very expensive and most people only had it on special days, like the first day of the New Year. Now you can buy it almost everywhere in the world.

3

This very tasty snack comes from Wales. It's also called 'Welsh rabbit', but it has no rabbit in it at all! Welsh rarebit is very easy to make at home. You make a mixture with cheese, butter, mustard and flour, put it on top of toasted bread and then under a hot grill. There are recipes for Scottish and English rarebit too!

4

It has a strong smell and salty taste, but it has a lot of fans around the world. People usually eat it with cracker after a good dinner. The cheese is called Blue Stilton. They make it in the East Midlands. Here's a fun fact: it takes ten litres of milk to make just one kilo of cheese!

I wanted to be a superhero!

Hi, my name is Ricky. Yesterday, I found some photos. Look! Some of them are old. Wow! I've changed a lot!

In this photo, I'm five. That's my sister. She wanted to *be / have* a doctor. I wanted to be a superhero!

When I was twenty-one, my greatest ambition was to *have / live* on my own. My first flat was very small and cold!

**Debbie's
teen problem
page****Late – again!**

Dear Debbie,
Can you help me? It's my friend, Joe. I always arrive on time, but he's always late. Last week I was waiting for him outside the cinema. This time he was half an hour late! 'Where were you?' I asked. 'I was chatting to Freddie,' he said. He didn't even say sorry! I'm sure that in future he'll be late again. Why do people think it's OK to keep others waiting?

Derek

Being late is a common problem and it's not polite. It's important to be on time. It shows you care about other people's feelings. Speak to your friend and explain this to him. And next time you arrange to meet, say 'Please don't be late.' Then wait and see what happens.

Little brother, big problem

Dear Debbie,
My little brother is five and he's terrible. When I'm chatting to my friends, he interrupts all the time. 'When are we having dinner?', 'Where's my teddy?' He takes my things and he never asks for permission. Oh, and he always wants to be first for everything. He never waits his turn. Mum says 'He's still young. He'll learn.' But it's really annoying.

Julie

Little brothers and sisters can be annoying, but your mum is right. He is young. Be patient with your brother and keep repeating (nicely!): 'Please don't interrupt', 'Please don't take my things without asking.' He will learn.

1 Read the problem page quickly. Circle the correct answer.

- Why is Derek complaining?
 - His friend talks too much.
 - His friend always keeps him waiting.

 - He will change when he's older.

Transport in the future

by Gabriella Marques

I'm sure transport twenty-five years from now will be different. Some people think we won't use cars and we will all travel in small planes, but I don't think this will happen. I think everybody will use public transport.

Maybe there will be an underground in every town and city. The streets will be for electric trams or buses and the air will be cleaner. I hope more people will ride bicycles because exercise is good for your health. When we want to visit another city or country, we will take a very fast train.

the UK	 twenty ³ _____	 five ⁴ _____
some European countries	 twenty ⁵ _____	 ten ⁶ _____

- 3 Read the text. Did you label the money in Exercise 2 correctly?

A currency is the money we use in a country. Different countries have different currencies.

The British pound (£)

The British pound is one of the oldest currencies in the world. There are notes for 5, 10, 20 and 50 pounds. The new notes are plastic, not paper. There are lots of coins: 1, 2, 5, 10, 20 and 50 pence. You can say 'pence' or 'p'. The other coins are 1 pound and 2 pounds.

Currencies

The US dollar (\$)

The US dollar is a popular currency. There are notes: 1, 2, 5, 10, 20, 50 and 100 dollars and coins: 1, 5, 10, 25, 50 cents and 1 dollar. The coins have names. One cent is a 'penny', 5 cents is a 'nickel', ten cents is a 'dime', 25 cents is a 'quarter' and 50 cents is a 'half dollar'.

The Euro (€)

The Euro is a new currency and many European countries use it. There are notes for 5, 10, 20, 50, 100, 200 and 500 euros. There are eight coins: the cents are 1, 2, 5, 10, 20 and 50 and the euros are 1 and 2. The coins are the same on one side, but on the other side there are different pictures for each country. For example, Austria has Mozart, Belgium has the king and France has a tree.

100 years of listening to music

One hundred years ago, people listened to music on a gramophone. The music was on records that went round and round. Gramophones didn't work with electricity - they worked with a key you turned, like an old clock. The sound came from a large metal cone. Gramophones weighed a lot - more than 12 kilos! In the 1940s, people listened to music on record players that worked with electricity. Record players had speakers and the records were vinyl. Vinyl was a special plastic for records.

Thirty years later, people also had cassette players. The cassettes weren't 'strong' but they were smaller than records. The Sony Walkman® - a small portable cassette player with headphones - was also popular.

Then in 1982, CD players arrived in the shops. People stopped listening to records and cassettes and they bought compact discs. The compact discs were stronger than cassettes and the sound was better. Lots of people bought the portable Sony Discman with headphones and listened to their CDs outside their homes.

Nowadays we listen to music with headphones on MP3 players and smartphones. You can download songs to an MP3 player or a smartphone. Now you can also listen to music on apps with your smartphone.

Vinyl records are popular again today, so ask your grandparents to find their old record players!

Breakfast

In the morning you need to be active, so have a healthy breakfast. I like cereal with milk and a glass of orange juice. Carbohydrates in cereal give you energy, the milk has minerals and orange juice has Vitamin C. In fact, all fruit has lots of vitamins.

We need protein for our brains, fibre to make food go through our bodies and carbohydrates for energy. Vitamins and minerals help us grow and help us stay healthy.

Lunch

For lunch I usually have chicken and tomato sandwiches with brown bread. It's better than white bread because it has more fibre. Chicken has protein, so you can do well in class! 😊 And tomatoes have fibre and Vitamin E. I only put a little butter because it has fat and it isn't good for your health.

Dinner

I like fish or meat for dinner because it has protein. Red meat also has important minerals. I add potatoes, pasta or rice - they have carbohydrates - and green vegetables for fibre and vitamins.

Snacks

I try not to eat sweets or chocolates! Sugar and fat have lots of calories, so they're not good for you! Have an apple, a cereal bar or a salad instead. I sometimes boil an egg for an egg sandwich because milk products (eggs, milk, cheese, yoghurt, butter) have protein and minerals.

Vocabulary Sources of energy

coal gas oil renewable sources of energy
solar farms solar panels wind farms

2 Read the text. Complete the gaps with the words from Exercise 1.

I'm William and this is my school project on sources of energy.

Most people get electricity from:

They aren't renewable and they make air and water dirty. My family thinks looking after our planet is important. We should save energy and we should also use ¹renewable sources of energy. Read on to learn more.

² _____ farms use the wind to make energy. This energy turns into electricity and we can use it to power our washing machines and blenders. Wind is always with us, so we can use it again and again. That's why we call it renewable.

Another thing we can use is the sun.

Lots of houses have ³ _____ panels on the roof. We can use the heat from the sun for water heating, but we can also make electricity with the sun's energy. ⁴ _____ farms can make electricity for whole towns.

A block of flats is a tall building. We can build houses and flats with natural materials like wood and stone, so they are good for the planet. We can even grow plants on buildings. They look nice and the rooms inside stay warm in winter and cool in summer. That means that we use less coal, oil and ⁵ _____ for heating and we save energy.

3 Circle the correct answer.

- When you save energy you use less / more energy.
- A solar panel makes electricity from the sun / water.
- A wind farm makes energy from plants / the wind.
- We can / can't use a renewable source of energy many times.
- We need water heating in buildings for hot / cold water.
- Coal, gas and oil are / aren't renewable sources of energy.

4 Tick (✓) what saves energy and cross (✗) what doesn't save energy.

- driving a car
- having a solar panel on the roof
- leaving the TV on when you aren't watching
- not leaving a computer on stand-by
- riding a bike to school
- using coal to heat the house
- wearing T-shirts at home in winter with the heating very high

5 Do you save energy at home and at school? What can you do to save more? Ask other people and look for some ideas on the Internet.

My home:

- What I do to save energy: I don't leave my computer on stand-by, _____
- More things I can do to save energy: I can ride my bike to school, _____

My school:

- What we do to save energy: _____
- More things we can do to save energy: _____
